**1. P.E. (12:30 P.M.)****2. CALL TO ORDER (12:35 P.M.)****2.1 Land Acknowledgement**

*With respect and honor for the lands where Chaffey College resides and the leaders who came before us, we would like to take a moment to acknowledge the Gabrieleño-Tongva (GABRIEL-EN-YO TONG-VAH) Peoples, the original stewards of these sacred and unceded homelands. The Tongva people's history, language(s), cultural traditions, and legacy continue to shape this region and we recognize their continuing presence in their homelands.*

**2.2 Attendee Identification** (Chino and Fontana Senators, cameras must be on and turn off all virtual backgrounds.)**3. PUBLIC COMMENT** (Reserved for Guests only and limited to two minutes.)

- Selene Pineda read the following statement:
  - On February 26th, administration requested a meeting with library faculty and staff to provide changes affecting the library, including a shift in management under a new night dean. The meeting was held on March 5th.

Although we appreciate the time and effort for administration in sharing the new updates, we were recently informed that the Academic Senate and CCFA were not consulted on these changes. Instead, they were merely notified over a month ago and instructed by administration not to inform the librarians. We are uncertain whether the same applies to Classified Senate and CSEA.

During the meeting the library employees, administration stated that there were no secrets at Chaffey and that the appropriate Senate bodies and venues were consulted. Given this new information, we are deeply concerned that consultation did not take place and that the Academic Senate and CCFA were instead told not to share this information—to what purpose or intention? Our main concern is that the administration's actions have eroded our confidence and trust in this process and its leadership. It appears that the intention was to exclude and silence us, isolating the library from the rest of Instructional Support.

The lack of transparency and exclusionary decision-making is exactly why the Academic Senate passed the *Vote of No Confidence* in administration. For years, we have repeatedly requested to

be included in, or at the very least consulted on decisions affecting the library—decisions that directly impact our ability to support students. Despite these requests, our input continues to be disregarded, contradicting the principles outlined in the 10-Point Plan.

As library faculty and staff, we have a right to be involved in decision-making processes that shape our work and, most importantly, affect student outcomes. An inclusive and equitable approach is essential to ensuring that decisions truly serve the best interests of our students.

Moving forward, it is critical that decisions affecting the library—and all areas of the college—are made with genuine consultation and respect for shared governance. Thank you for the time today.

- Carol Hutte read the following statement:
  - Senate officers, senators, and guests:

I am Carol Hutte, past coordinator of the library from 2009 to 2019 and the senior full-time faculty member currently in the department. I want to expand on what my colleague, Professor Selene Pineda, has just brought up in public comment in regards to the upcoming restructuring and changes of management to our department that were announced to us last week.

In terms of communication, the way in which library staff and faculty in the library were notified about these changes were absolutely terrible. This was a wasted opportunity for the administration to work to rebuild trust and showcase a commitment to shared governance by at least giving members of departments affected by these changes a chance to voice their opinions prior to this being implemented.

For instance, when I was coordinator and we were restructured and moved into the same department as English under Associate Superintendent Meredith Randall, she did at least consult with me as the coordinator and with the employees of the department before that change was made.

Ironically, there is probably a good chance that many of the employees in our area might have seen the benefits to this current restructuring as it would give our department a more dedicated manager that was less thinly spread with other commitments. But instead, because of the lack of transparency and the secrecy leading up to the announcement of this change, trust in the district and its representatives, which was already low in my department, is now in freefall.

Shared governance, like democracy, is a practice. And as such, it is in the action and deed that demonstrate a commitment to it, not words. I am appealing to the administrators of the district to recommit to that practice of shared governance in action and deed when it comes to concerns the employees in areas that are affected by restructuring decisions so that we can work together, co-creatively, to better support the students we serve.

Thank you for giving me the time to speak to you today.
