

Appendix A

A Brief List of College Priorities and Success Worth Noting

The College has collaboratively implemented many ongoing efforts and accomplishments over the last few years. We emphasize that this was a collective effort, and no one group is responsible for Chaffey's success. We are pleased to highlight some of them here.

Post-Pandemic Plans: Through our collective effort, we have provided enhanced academic and support services to students, helping them complete their academic and career goals despite persistent and unprecedented obstacles.

Building Enrollment, Success, and Facilities: Our enrollment numbers have rebounded to pre-pandemic levels, demonstrating our resilience and commitment to student success. Vibrant student life and engagement are exploding across the campuses. Measure P work is steadfast, and soon, we will be celebrating the opening of the new Chino instructional building and the new aquatics center, among many other facilities to come.

Diversity and Inclusion: We have made significant strides in building a campus community that supports and celebrates diversity, offering extremely competitive compensation and benefits, and building a workforce that helps students reach their goals.

2024 – At A Glance

- **Ranked No. 4 Best Community College in Region (WalletHub)**
- **Increased the number of full-time equivalent students from 15,115 to 16,604 in 2024**
